

Dear Latitude Customer:

Thank you for your interest in the Latitude Manometry System, which consists of the following products and product codes:

- Latitude Esophageal Catheter (GIM-6000E)
- Latitude Anorectal Catheter (GIM-6000A)
- Latitude Directional Catheter (GIM-6000D)
- Reusable Cables for Alpine (Medtronic), Sandhill and MMS Systems (GIM-6030, GIM-6050, GIM-6020, GIM-6040, GIM-6060)
- Pressure Calibrator complete with Stopper (GIM-6100, GIM-6110)
- Reusable stylets for Esophageal and Anorectal (GIM-6200, GIM-6201)

We hereby certify that the Latitude Esophageal catheter, Anorectal and Directional catheters (not including the rectal stimulation balloon), all reusable cables, the pressure calibrator and stopper, and the reusable stylets do not contain Latex in their formulation or composition.

The rectal stimulation balloon on the Latitude Anorectal and Directional catheters contains no “natural rubber” Latex in its formulation.

Regards,
